INTRODUCING ... your current Board of Directors Meet the dedicated volunteers who lead TPS President's Message - Troy Libke, PTech

Technology Professionals Saskatchewan (TPS) elected Mr. Troy Libke, PTech, as President at the 60th Annual Meeting held on May 23, 2025. Troy is the Association's 37th President.

Troy became an Associate member in 2007 shortly after his graduation from the Saskatchewan Polytechnic, Moose Jaw campus, Water Resources Engineering

program. In 2009, he was registered as an Applied Science Technologist (AScT), and acquired Professional Technologist (PTech) status in 2024 when the Association changed its professional designation. He serves as a member of TPS' Registration and Examination Boards; represents TPS on water engineering related matters; and at Saskatchewan Polytechnic as a guest speaker and unofficial member-recruiting ambassador. At the national level, he represents Saskatchewan on the Leadership Council for Technology Professionals Canada.

Shortly after Troy graduated in 2006, he immediately began working for Stantec Consulting for 12 years. Troy started out briefly as a Construction Coordinator, then Project Coordinator, and finally as a Project Manager in Stantec's Community Development group. Projects he worked on included the Windsor Park, and Harbour Landing Subdivisions in Regina, as well as numerous other residential, commercial, industrial, and rural residential subdivision developments.

Troy explored new challenges and opportunities in civil engineering and project management, with his position as a Senior Project Manager at Walker Projects – a Division of MBC Engineering Group in Regina. He managed a broad range of civil engineering projects including bridge replacements, First Nations water distribution systems, creek remediations, sanitary sewer and water capacity studies, various water modeling, sewage lagoon expansion, sanitary pumping stations, roadways, airport resurfacing and many other civil projects in the short time he has been with MBC Group. Troy is currently employed with Allnorth Consulting Limited in Regina and is working to grow their office by offering municipal infrastructure and land development services as a Civil Group Lead.

Troy is thankful for the opportunity that has been given to him as President of Technology Professionals Saskatchewan. He plans to continue to build on the many initiatives the TPS board and committee volunteers have started.

TPS is the provincial regulator responsible for the registration and practice of applied science and engineering technology professionals. Established in 1965, the organization grants the professional designations Professional Technologist (PTech), and Certified Technician (CTech), under the "Saskatchewan Applied Science Technologists and Technicians Act", in the following disciplines: Architectural / Building, Bioscience, Chemical, Civil, Computer, Design and Manufacturing, Electrical, Electronics, Engineering Design and Drafting, Environmental, Forestry, Geomatics / Survey, Industrial, Information, Instrumentation, Mechanical, Mining, Petroleum, Telecommunications, and Water Resources.

PRESIDENTIAL DECLARATION

I, Troy Libke, PTech, swear that I will faithfully and truly perform my duty as President of Technology Professionals Saskatchewan and that I will, in all matters connected with the discharge of such duty, do all things, and such things only, as I shall truly and conscientiously believe to be adapted to promote the objects for which such Association was constituted, according to the true intent and meaning of the same. Declared on this 23rd day of May, 2025.

Thank you to everyone in attendance at the TPS 60th Annual Meeting. It was a pleasure seeing you all!

A handwritten signature in blue ink that reads "Troy Libke".

Troy Libke, PTech
TPS President

INTRODUCING ... your current Board of Directors Meet the dedicated volunteers who lead TPS

1st VICE-PRESIDENT
Heath Armbruster, PTech

After majoring in Production Design in Electronics Systems Engineering at the University of Regina in the mid-1980s, Heath began his career at the local cable company, Cable Regina, where he worked for six years in diverse roles, including engineering, production, ad creation, technical support,

and Master Control. He ultimately rose to the position of supervisor before transitioning to a teaching career in 1997 at Saskatchewan Polytechnic in the Electronic Communications Technician program. In the same year, Heath became a member of Technology Professionals Saskatchewan, earning the Professional Technologist (PTech) designation.

During his time at Sask Polytech, Heath has played a key role in modernizing curriculum delivery by piloting the transition from Competency-Based to Outcome-Based education and redeveloping courses to establish the Applied Electronics Technician program. Over his 27-year tenure at what is now Saskatchewan Polytechnic, Heath focused on professional development, achieving accreditation to teach the Cisco Certified Networking Associate curriculum within the Computer Networking Technician (CNT) program. His expertise and leadership lead to his appointment the Regional Director for the Cisco Networking Academy Canada's Academy Support Centre for Saskatchewan and northern Alberta, overseeing curriculum delivery across Local Academies.

After 20 years as an instructor, Heath advanced to become the Program Head for the Telecommunications Networking Technician and CNT programs and spearheaded efforts to introduce the Computer Systems Technology program in Regina. In late 2022, he was appointed interim Academic Chair for the School of Information and Communications Technology (ICT). Currently he is leading a team to convert the CNT program into a fully online delivery format, addressing the growing need for flexible and hybrid learning options. Heath has recently completed a global MBA in Educational Leadership.

2nd VICE-PRESIDENT
Dave Lenz, PTech

Dave graduated from Saskatchewan Polytechnic Moose Jaw campus Water Resources program in 2004. Following graduation Dave returned to work for the Ministry of Highways and Infrastructure (MHI) Regina Laboratory in January of 2005 where he had been a coop student.

As a technologist his duties included various soils tests, asphalt concrete testing and liquid asphalt testing and reporting.

During his career at MHI from 2005 to 2011, Dave supervised the soils area and was responsible for training of new Techs at MHI.

In 2011, Dave joined EBA Engineering (which became Tetra Tech) as the Lab Manager in the Regina office. His responsibilities included asphalt mix design, geotechnical investigations testing and reporting, along with asphalt plant calibration, and training of technologists throughout Saskatchewan. In 2013, the lab was certified by CCIL in asphalt, aggregates, and concrete. Dave was on the first EPS project that returned to Saskatchewan in 2013.

In 2019, he opened his own company Independent Materials Testing Services in Regina. The company conducts asphalt, soils and aggregate concrete testing. Main clients are Regina contractors, several RM's, and engineering firms. The company is CCIL certified as well.

Dave has been married for 27 years to his wife Rae. They have two children Alexandra and Jaxson.

INTRODUCING ... your current Board of Directors Meet the dedicated volunteers who lead TPS

PAST PRESIDENT
Frank Van Breugel, CTech

Frank graduated in 1976 from Saskatchewan Polytechnic Moose Jaw campus Industrial Instrumentation program. Following graduation, Frank and his family (wife, son and daughter) moved to British Columbia just north of Fort St. John in 1977.

After a short stint there with Westcoast Transmission Gas recovery and delivery, Frank and his family moved to Saskatoon where he began working at Cominco Potash (now part of the Nutrien group). Four years later, Frank took a job in the Instrumentation program at Sask Polytech. Frank had received his Red Seal Instrument Mechanic Journeyperson status. He began instructing in the Fall of 1983. After a few years, Frank completed a Vocational Technical Education Certificate program through the University of Regina.

In 1990, Frank took on Program Head duties of the Instrumentation programs. After a few years, Frank returned to a full time instructor position. Also noted, Frank signed on to what is now TPS in July 31, 1992. In 2004, Frank once again became Program Head, and remained in that position until his retirement in 2018. Overall, Frank's Instrumentation career spanned 43 years. One key accomplishment that the Program staff achieved was it received National Accreditation status through Technology Accreditation Canada and has retained that status up to the present date.

Through the years, Frank has volunteered to participate in various groups: Excellence in Teaching Awards (formerly initiated by Palliser Campus Faculty Association); Moose Jaw Campus Staff (Social) Club; ASAP (Aboriginal Student Association Participation); ISA (International Society of Automation) Student Advisor. The Instrumentation staff, when Frank was Program Head, had received a very substantial amount of a \$1,000,000 gift in kind from Spartan Controls. This helped immensely in the program to obtain equipment and also improve training for equipment used in the Instrumentation program.

Frank likes to enjoy Duplicate Bridge with the Bridge Club in Moose Jaw. Frank is an avid (sometimes awful) golfer, and looks forward to the challenge of a number of courses. Running has been a big part of his activities. This included a couple of half marathons and one full marathon.

DIRECTOR
Tricia Pollock, PTech

Tricia became an Associate member in 1994 after graduating from the Civil Engineering Technology program at Saskatchewan Polytechnic Moose Jaw campus and gained her PTech status in the following years. After spending time with an asphalt company and a small general contractor

at a uranium mine, Tricia joined the City of Saskatoon's Engineering Department. There she learned the inner workings of the municipal infrastructure of the City and later moved into the Public Works Department. In 2004, her career began to take a turn when Tricia enrolled into the University of Saskatchewan extension division and obtained her Occupational Health and Safety Certificate from the University of Alberta. She worked her last four years with the City in the Water and Wastewater Departments as a safety advisor.

In 2008, after gaining her Canadian Registered Safety Professional (CRSP) designation, Tricia took her engineering and health, safety and environment knowledge to PCL Construction in Saskatoon. Here she grew into a passionate safety professional while applying and understanding the dynamics of active construction projects. In 2020, Tricia moved into the Health, Safety and Environment Manager role. She now uses her knowledge and experience in design, development and execution of safe, efficient and quality construction projects to guide the PCL Saskatoon district.

Tricia has also served on the Board of Directors for the Saskatchewan Safety Council since 2019, Chairs the Saskatoon Regional Screening Committee for the Board of Canadian Registered Safety Professionals, and volunteers for the Saskatoon Chapter of Dress For Success.

INTRODUCING ... your current Board of Directors Meet the dedicated volunteers who lead TPS

DIRECTOR
Lorne Diakow, PTech

Lorne has dedicated his career to the advancement of engineering technology, bridging industry experience with educational leadership. His journey began at Saskatchewan Polytechnic in 1990, where he enrolled in the Design and Manufacturing Engineering Technology program. Demonstrating a strong aptitude for the field, he graduated in 1992,

laying the foundation for a diverse and impactful career.

Upon graduation, Lorne joined Northern Telecom, contributing to the IP Connectors and Fiber Engineering Departments. This experience provided him with valuable insights into cutting-edge telecommunications technology. Seeking to apply his skills in a more direct, humanitarian manner, he transitioned to Crestline Coach Ltd. Here, Lorne leveraged his prior training as an Emergency Medical Technician to enhance ambulance design, directly improving the working environment for paramedics and the care provided to patients. His four years at Crestline Coach Ltd. reflected a commitment to practical, real-world applications of engineering technology.

In 1996, Lorne joined Genesis Architecture and Engineering, where he took on a pivotal role in managing the company's CAD systems. He developed and implemented CAD standards, ensuring consistency and efficiency across projects. Notably, he pioneered the implementation of the first file management system utilizing the internet to facilitate collaborative projects among geographically dispersed engineering disciplines. This innovation significantly streamlined workflows and improved project outcomes.

Throughout these years of industry experience, Lorne remained committed to fostering the next generation of technologists. He volunteered on the Program Advisory Committee for the Mechanical Engineering Technology and CAD/CAM Engineering Technology programs at Saskatchewan Polytechnic. His dedication and expertise were recognized in 1998 when he was invited to join the staff of the CAD/CAM Engineering Technology program at Saskatchewan Polytechnic.

In his role as an instructor, Lorne has consistently embraced and implemented emerging technologies, including advanced CAD systems, CAM, 3D printing, and robotics. He has played a crucial role in supervising and participating in numerous applied research projects, providing students with hands-on experience and preparing them for the demands of the modern workforce. Lorne maintains broad and diverse connections with industry and graduates, ensuring a current understanding of industry's evolving needs. This network informs his curriculum and teaching methods, keeping them relevant and aligned with the demands of the modern engineering landscape.

Lorne is a passionate advocate for the Technology Professionals of Saskatchewan (TPS), and its members. He actively encourages students to pursue professional registration, emphasizing the benefits of membership in relevant professional organizations. His commitment to professional standards extends beyond his institution. He has recently been accredited as a lead auditor for Technology Accreditation Canada, where he plays a vital role in ensuring that engineering technology programs across Canada meet the rigorous standards necessary for training competent technologists and technicians.

THE TECHNOLOGY RING

The Technology Ring is a symbol of professionalism and is traditionally worn on the fifth finger of the working hand. It is the exclusive domain of registered professional applied science / engineering technologists and certified technicians in Canada. The ring is formed by a repeating pattern of five gears bracketed by a maple leaf on each side. The gears represent the five members of the engineering / design team: trades person, technicians, technologists, engineers, and scientists. The ring is available for purchase to TPS Professional Technologists (PTech), and Certified Technicians (CTech) only.

Order yours today!

INTRODUCING ... your current Board of Directors

Meet the dedicated volunteers who lead TPS

DIRECTOR
Jordan Wicks, PTech

Jordan has been a member of TPS since 2012. Jordan graduated from Saskatchewan Polytechnic with a diploma in Chemical Technology in 2006 and moved to Langenburg to work at Mosaic's Esterhazy potash mine, primarily in the K2 lab. His work at

K2 involved running routine mill samples to verify the mill was running on spec, railcar samples for shipments, water samples from underground on the ICP. Jordan spent two years at Mosaic before moving onto furthering his education.

In 2009, Jordan graduated from Royal Roads University with a B.Sc. in Environmental Science and moved back to Saskatoon to work at the Saskatchewan Research Council (SRC) as a Research Technologist. Jordan worked on and led a variety of projects at SRC including catalyst development for alternative fuels, procurement and operation of a 20 kW gasifier, microbial enhanced oil recovery research, as well as several projects related to

pyrolysis oil and biochar production from agricultural residue. One of the highlights of his work at SRC was using the 20 kW gasifier, running on locally sourced woodchips, to power a recording studio at the Bluegrass Festival in Ness Creek.

In 2018, Jordan began working for Contango Strategies in Saskatoon who's work focused on passive treatment of mining impacted waters prior to release. His work at Contango was primarily based on in-situ field trials as well as development of pilot scale systems for treatment evaluation. He worked at various mines across Canada with the primary focus being the Rainy River Mine and the construction of a 20,000 m³/day water treatment plant.

Jordan then joined ZYUS Life Sciences in 2020 as a Production Supervisor as the company was moving into the final phases of construction. Jordan worked through start-up and establishing routine production in a GMP environment including SOP development, creating protocols for process evaluation, and overseeing and training operators. While at ZYUS, Jordan completed his Master of Science in Civil Engineering from the University of Saskatchewan in 2023. Jordan also moved into his current role of Production Specialist with a focus on developing new and novel processes for new products under the requirements of GMP. Jordan lives in Saskatoon with his wife Leann, and son Jake.

2025 TPS Photo Competition

TPS is proud to sponsor its 4th annual photo and video competition. All TPS registered professionals, associate, and student members are eligible to enter. Login to www.tpsk.ca.

TPS would like to encourage members in all disciplines to submit photos for the TPS library. Currently TPS needs photos in: BioScience, Chemical, Forestry, Mechanical, and Mining.

Entries must be emailed to: admin@tps.k.ca
All entries must be received by TPS
no later than 4:00 pm (CST)
Friday, October 31, 2025.

INTRODUCING ... your current Board of Directors Meet the dedicated volunteers who lead TPS

PUBLIC APPOINTEE
Betty Hoffart, FCPA, FCMA

Betty is a public representative on the TPS Board of Directors, currently serving her second term. Betty was employed as CEO of the Society of Management Accountants of Saskatchewan until the three accounting bodies in the province were merged to form the Chartered Professional Accountants of Saskatchewan.

Betty was previously a senior manager at SaskTel for several years, working in Finance, Business Development and Customer Services, prior to taking early retirement.

Betty is an active volunteer and currently serves as a public representative on the Saskatchewan College of Respiratory Therapists, as President of the Moose Mountain Provincial Park Cottage Owners Association, and as President of the Saskatchewan Provincial Park Cabin Owners Association. Her previous volunteer experience included public representative for the Saskatchewan College of Paramedics, United Way of Regina, Family Service Regina, Regina Public Library, Paul J. Hill School of Business Advisory Board to the Dean, Financial Executives International Regina Chapter, and Treasury Management Association of Canada.

Betty enjoys spending time at her cottage during the summer, where she is a member at the White Bear Lake Golf Course. She also enjoys reading, needlework, and traveling to visit family and friends.

PUBLIC APPOINTEE
Scott Schultz, CAIB

Scott was recently appointed as a public representative on the TPS Board of Directors. He is a seasoned professional with a diverse background in insurance, professional athletics, and community engagement.

Currently, he serves as an Advisor & Partner at Lakeview Insurance Brokers, where he

specializes in commercial property and casualty insurance, farm insurance, and client relationship management.

A former professional football player, Scott had a distinguished 10-year career in the CFL and NFL, notably with the Saskatchewan Roughriders, where his leadership and dedication were recognized both on and off the field.

Transitioning into the business world, Scott has leveraged his expertise, network, and strong work ethic to excel in the insurance industry, becoming a trusted advisor and leader.

Scott is deeply committed to his community, contributing through youth sports coaching, public speaking, or local business initiatives. He brings to the TPS Board of Directors a unique perspective, combining strategic thinking, resilience, and a proven ability to drive results in competitive and collaborative environments.

Scott holds CAIB, and a BA Comm. designations, and is passionate about fostering growth and innovation in every endeavour.

Highlights of the 60th Awards Ceremony

PRESIDENT'S AWARD

L to R: Troy Libke, PTech, (TPS President), and Dan Bechard, PTech

Each year the President's Award is chosen and presented by the TPS President to an individual who promotes and furthers the professional identity of the Association to the public. This individual, through professional conduct and actions, takes it upon themselves to educate, promote, and defend the organization and its membership.

The "2025 President's Award" was presented to Dan Bechard, PTech, for his tireless efforts towards promoting the applied science and engineering technology profession both provincially and nationally.

Read Dan's comments, click [here](#).

TECHNOLOGY PROFESSIONAL OF THE YEAR AWARD

L to R: O. Brent Bradford, PTech, and Troy Libke, PTech, (TPS President)

This Award is presented to TPS members who have distinguished themselves in the professional life – whether in technical practice, management, teaching, or administration.

TPS is pleased to present the 2025 Technology Professional of the Year Award to O. Brent Bradford, PTech.

Brent is a 1973 graduate of Saskatchewan Polytechnic's Mechanical Engineering Technology program. He works at Engcomp in Saskatoon as a Mechanical Design Specialist.

Brent's professional demeanor and expertise is second to none. He is widely viewed as an industry expert in bulk

materials handling where his designs and insights, whether direct or through mentoring, are found in potash mines across Saskatchewan. His expertise is so highly regarded that vendors put him on their "speed dial". From 1988 to 2017, Brent served on the Program Advisory Committees for Mechanical Engineering Technology and Design and Manufacturing Engineering Technology Programs at Saskatchewan Polytechnic, ensuring the curriculum aligned with industry needs.

He also sat on the Canadian Technology Accreditation Board, even travelling to the United Arab Emirates for a due-diligence audit.

Read Brent's comments, click [here](#).

Highlights of the 60th Awards Ceremony

MAURICE M. ZIMMERMAN, PTech, EXCELLENCE IN THE TECHNICAL INSTRUCTION AWARD

L to R: Mark Ferguson, PTech, and Troy Libke, PTech, (TPS President)

This Award is chosen and presented to an individual who deserves the admiration and respect of the public and is a member of TPS. The objective is to publicly showcase a technical instructor who has demonstrated an outstanding level of professionalism and excellence in making a significant contribution to the study of technology.

This Award is named after Maurice Zimmerman, a Professional Technologist who was one of the Association's founding members, and our third President. Unfortunately, Moe passed away in 2015.

This year, TPS recognizes Mark Ferguson, PTech, for his outstanding professionalism and excellence in making a significant contribution to the education of professional technologists and technicians.

Mark is a 2011 graduate of Saskatchewan Polytechnic's Instrumentation Engineering Technology program.

Among the many comments his students submitted when nominating him for this Award were:

"Mark displays complex ideas and makes challenging problems very clear. He is well prepared for his lessons and highly knowledgeable in the topics he teaches."

TPS wishes to recognize Mark for his technical ability, leadership, creativity, innovation, and for the many students he has taught and mentored in Saskatchewan Polytechnic's Instrumentation Engineering Technology program - his dedication.

Read Mark's comments, click [here](#).

MERIT AWARD

L to R: Bonnie Fenrick, PTech, and Troy Libke, PTech, (TPS President)

The Merit Award is presented to individuals who have distinguished themselves in service to the Association on a voluntary, salaried, or elective basis. Bonnie has served on the TPS Registration Board for almost a decade and

is our subject-matter expert in the architectural discipline. She also advises TPS on matters relating to the National Building Code.

Read Bonnie's comments, click [here](#).

Highlights of the 60th Awards Ceremony

LIFETIME VOLUNTEER ACHIEVEMENT AWARD

L to R: Richard Belton, PTech, and Troy Libke, PTech, (TPS President)

In recognition to their tireless efforts and commitment to our profession, TPS CEO Jaime Feltis, PTech, has directly

L to R: Greg Koch, PTech, and Kelly Nelson, PTech

chosen these three deserving registered professionals for the 2025 TPS Lifetime Volunteer Achievement Award.

EMPLOYER OF THE YEAR AWARD

L to R: Tom Boehm, PTech, Allen Tressel, PTech, Ryan Beck, PTech, Jason Dearing, Olivia DeRosier, and Troy Libke, PTech, (TPS President)

TPS presented Team Power Solutions with the 2025 Employer of the Year Award. Team Power Solutions is recognized for promoting continuing education, professionalism, and ensuring public safety with a quest

to offer the highest level of services by committing to hire professional technical personnel.

Read Tom's comments, click [here](#).

Highlights of the 60th Awards Ceremony

10 TO 20 YEAR AWARD RECIPIENTS

L to R: Wade Tipper, PTech, Donald Booth, PTech, Jenny Irvine, PTech, Andrew Koschinsky, PTech, Alicia McEwen, PTech, and Troy Libke, PTech, (TPS President)

30 YEAR AWARD RECIPIENT

L to R: Troy Libke, PTech, (TPS President), and Larry Leason, PTech

25 TO 35 YEAR AWARD RECIPIENTS

L to R: Kendra LeBoldus, PTech, Greg Trobert, PTech, Darin Schindel, PTech, and Troy Libke, PTech, (TPS President)

40 AND 45 YEAR AWARD RECIPIENTS

L to R: Teresa Bomersbach, PTech, Robert Bernhardt, PTech, Rance Best, PTech, Gary Ericson, PTech, and Troy Libke, PTech, (TPS President)

60 YEAR AWARD RECIPIENTS

L to R: Ken Wicks, PTech, Gerald Epp, PTech, and Troy Libke, PTech, (TPS President)

Congratulations!!!

More all-around *protection*. Less all-around *cost*.

Engineers Canada-sponsored Insurance Plans can help you create all-around protection for your loved ones' health, finances, and more.

*They're exclusive to engineers, technicians, technologists, and geoscience professionals—and offered at **some of the very best rates in the industry**.*

Don't miss out:
Enjoy 50% OFF
premiums on new or additional
Term Life Insurance until
March 31, 2026.[†]

Visit **Manulife.ca/TPSpro** or call **1 877 598-2273**

Benefits of the Engineers Canada-sponsored Term Life Plan:

- **Portable coverage** that stays with you anywhere in the world
- **Coverage for your spouse** at the same discounted rates
- **Additional 10% off** for coverage amounts of \$500,000 to \$975,000
- **Additional 15% off** for coverage amounts of \$1,000,000 or more

And that's not all. **You also have several other affordable plan options to choose from**, including:

-  Disability Income Protection
-  Health & Dental Insurance
-  Major Accident Protection
-  Critical Illness Insurance

[†]The 50% premium rate reduction does not apply to existing Term Life coverage. Premium rates have been reduced by 50% for new or additional Member and Spouse Term Life coverage. This 50% premium rate reduction will end, and premiums will increase on April 1, 2026, for all applicable Term Life coverage.

Individual circumstances may vary. Conditions, limitations, and exclusions apply. See policy for details. You may contact one of Manulife's Licensed Insurance Advisors or your licensed insurance agent if you need advice about your insurance needs.
